KNOW ABOUT CCE

Continuous and Comprehensive Evaluation

(सातत्यपूर्ण सर्वकष मूल्यमापन)

Continuous and Comprehensive evaluation is an system of assessment (Examination), mandated by the Right to Education Act of India. This approach is for assessment of the child, which has been adopted and implemented by Govt. of Maharashtra for students of Class 1 to 8. The main aim of CCE is to evaluate every aspect of the child during their presence in the school.

KNOW ABOUT NEP (New Education Policy 2020)

The New Education Policy (NEP) 2020 is a comprehensive policy framework for the transformation of the education system in India. It was approved by the Government of India in July 2020, replacing the previous National Policy on Education, which was formulated in 1986 and revised in 1992. The NEP 2020 aims to bring significant reforms in various aspects of education, from early childhood to higher education.

In our school we are constantly developing content and various activities aligned with NEP for giving conceptual understanding rather than rote learning and learning only for exams. Promoting life skills, focus on formative assessment, extensive use of technology, make our students future ready, full equity and inclusion are some of the fundamental principles of our school.

NOTES

SEHS
INTERACTIVE
CONTENT

<https://sehschool.com>

eSEHS is an advanced interactive e-learning platform, an initiative of SARASWATI ENGLISH HIGH SCHOOL, Narpoli, Bhiwandi (Dist - Thane, Maharashtra).

Education seems to be constantly changing. During the COVID-19 pandemic, we have realized the potential of online learning. We also felt that classroom learning has its advantages.

Today technology has reached the point where students are no longer expected to sit at a desk and take notes in a classroom. eSEHS will serve as a one-to-one guide, teacher, and mentor. Learning with two directional engagements between content and student; continuous & comprehensive evaluation can be possible.

The classroom or school environment has its own advantages. The school provides a conducive learning environment. The classroom provides a dynamic learning experience. This includes an exchange of thoughts, expressing emotions, face to face interaction among students and teachers. Students in classroom learning actively participate in asking questions and getting their queries resolved. Dialogues among individuals lead to a flow of conversations and provide an opportunity to share their experiences. On the contrary, it lacks flexibility and convenience. At the same time, online interactive content engages students individually, and individual attention on students can be possible using technology.

We have merged experience and advantages of Classroom Teaching with interactive learning. We called this approach of teaching-learning process as 'Hybrid Approach'. We have supplemented this with in house developed dynamic 'Assignments'.

SPORTS WEEK

Annual sports day is an important event in our schools. It is a day dedicated to sports event and competitions, and it is usually held once a year. The primary objective of the annual sports day is to promote physical fitness, teamwork, and a spirit of healthy competition among students. Students participate in sports events based on their age and abilities. The events are typically organized in a way that encourages healthy competition, and students compete against one another to win prizes and trophies.
